

Inefficient and Unorganized Paper Applications

- Agency can't handle the large volume of paper applications
- Applications include errors that take months to resolve
- Need an electronic alternative to the legacy paper file workflow and storage issues

challenge

Simple, Intuitive, Automated Websites

- Process applications more efficiently and effectively
- Faster turn-around time
- Enable online payments
- Applications get completed with less errors
- When completed, License is automatically emailed to the licensee

solution

Provide a central hub for applicants to find and enter information related to their application!

GL Suite's online application system will drastically reduce the amount of time your staff spends processing applications. Introducing an online application component to your website will result in faster turn-around time for applicants and a reduction in data entry mistakes. GL Suite prevents a license or permit from being issued until all the online requirements (documents, applications, fees, board approval, payments and notifications) have been completed. Once entered, all information associated with an application can be viewed from within the licensee's record. All information associated with application requirements can be queried and displayed in various report formats for management review.

passionate about government

GL Solutions (passionately) stands for Government Licensing Solutions. Founded by ex-regulatory administrators, GL Solutions has provided government agencies with efficient and effective regulatory systems since 1997, delivering the perfect blend of software, solutions, and support.

Convert your paper application process into digital form to save money, secure personal information, and boost productivity!

Having your licensees enter their data online also saves you even more time in the long-run, as your staff will no longer have to input new data payment information for each applicant and renewal. This will allow your staff to focus on other vital agency work.

- Applicants complete online applications in minutes
- Access provided to applicants 24 hours, 7 days a week
- Integrate GL Suite with your existing website or let us build you something new
- GL Solutions has substantial experience designing public-facing websites that are eye-catching, easy-to-use and efficient for our clients

Move to online applications for faster turn-around time!

Key features for the public:

- Application websites deliver 99% availability
- Secure online user login and authentication
- Fewer human-error mistakes
- Requirements are completed in the backend GL Suite application as information is entered online
- Checks and balances (including data validation rules) included to verify information
- Session data is saved, allowing applicants to save their data and finish completing application at a later date
- Enable applicants to make online payments with credit/debit card
- Direct document requests to your website to provide quick access
- Online applications utilize up-to-date database information
- Style Sheets allow custom web design

start your solutions today
